License to cover.

Engineering Amendment filed 07/25/2014

Dismissed 11/18/2014 for failure to prosecute - no letter sent. Furthermore, applicant originally specified V-only polarization on the license application instead of circular polarization, as required by the construction permit. Applicant and its representatives have been contacted about these defects on multiple occasions, starting in September 2013. Although amended once to specify circular polarization, we continue to wait for further amendment. To date, the deficiency remains unresolved and the license cannot be granted.
